

Solar module with MAIN cells

ASE-165-GT-FT/MC

Module type key:

G = Glass
T = Tedlar
F = Framed
T = Thermoplastic cell embedding
MC = MAIN cell

High-quality crystalline solar cells ensure maximum energy yield. SCHOTT Solar modules have been awarded top ratings in a number of independent studies and surveys. Every module type is designed – from frame to connection box – for cost-effective system integration.

Tyco-Connectors

- Narrow output tolerance
- Quick and easy installation
- System voltage up to 860 V
- One step ahead

Narrow output tolerance: A very narrow module output selection permits serial connection with low connection losses.

Quick and easy installation: The anodized aluminum frame and the preinstalled cable with Tyco-Connectors ensure quick and easy installation.

System voltage up to 860 V: The Safety Class II module is configured for system voltage of up to 860 V. It is suitable for grid-connected systems.

One step ahead: The special SCHOTT Solar cell technology using multicrystalline wafers ensures optimum output and efficiency.
